D.SPARKLES

Introduction

D.sparkles is a sanctuary for those who cherish the artistry and elegance of handmade beaded jewellery. We make pieces that are not just accessories but expressions of individuality and style.

We believe that jewellery is more than just adornment; it is a celebration of personal stories that inspiries individuality. Whether it's a piece that adds a touch of sophistication to your evening attire or one that complements your everyday look, our designs are crafted to be cherished for a lifetime.

With Inclusivity at the core of our brand, we take pride in creating pieces that are accessible and resonate with a diverse audience, ensuring that everyone can find a piece that speaks to their heart. We are skilled in beadwork techniques that ensure high quality and attention to detail.

Mission Statement

To create and offer high-quality, handcrafted beaded jewellery that combines traditional techniques with contemporary designs.

Vision Statement

To become the leading global destination for handmade beaded jewellery, celebrated for unique designs, craftsmanship, and inclusivity, providing timeless elegance for everyone.

Brand Promise

To provide an exquisite collection of handmade beaded jewellery that embraces elegance and inspires individuality.

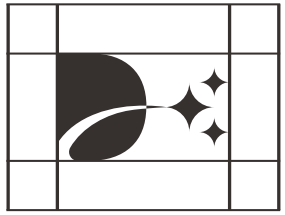

Primary Logo

To bring our design principles to life, we have designed a custom logomark that honours our brand name with a bold, simple, and modern design. As our primary logo, it will be used across all our touchpoints.

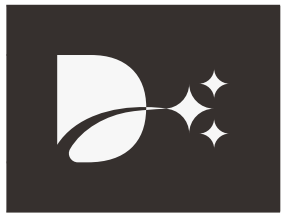

Logo Clearspace

Clearspace is the minimum distance required between our logo and any other visual or verbal elements. This minimum clearspace is defined by the height of our wordmark logo in proportion to our logomark.

Logo with background

We have created a special Primary Logo with a background to use in film, on photography, and signage. In film or on photography, it uses a light or dark background depening on which works best at the given time. This should be used only when the logo is placed over an image to help retain legibility.

Secondary Logo

We have also designed a secondary logo in the form of a wordmark that presents our brand name in a simple, modern, and bold style. This wordmark logo can be utilized across all our touchpoints but mostly for package designs.

Logo Use

Ensure that our logo is positioned along the top of the page or document cover in a left-aligned or center-aligned manner.

Refrain from making any alterations, modifications, scaling, misinterpretations, or additions to our logo design. This includes actions such as outlining, adding a drop shadow, or applying any other stylistic effects. The orientation, color, and composition of the logo must remain unchanged as specified in this document, without exceptions.

Place our website URL along the top or bottom of a page or document cover, right-aligned. Position it center-aligned only when our logo is center-aligned.

Avoid using colour combinations that render our logomark illegible.

When using our logomark, ensure that the brand colours remain consistent and do not differ.

Do not overlay our logo on images that obscure the legibility of the logomark. If our logo needs to be placed over such an image, utilize the version of the logo with a background.

These guidelines are applicable to all variations of our logo design.

Colour Palette

Our colour palette is distinctive and straightfoward, but colour pairings must be regulated to maintain a consistent brand impression.

Our colour palette should not be misinterpreted, modified, or added to. No attempt should be made to alter the colours in any way.

Typography

Typography is a crucial aspect of our identity and an effective tool for maintaining consistent communication.

The font ‘Uni Sans’ evokes a sense of clarity while the font ‘Century Gothic’ reflects a sense of simplicity and modernity.

Consistency in our typography accross our visual identity is very important. We must avoid modifying or using it in off-brand ways.
